WHAT IS IT?
SASE National Conference is the largest conference for Asian Americans in the United States. 3,000+ students and professionals join the world’s leading companies to educate, engage, and elevate the careers of students and professionals. Don’t miss out on 3 unforgettable days of building and connecting.

WHAT DOES SASE DO?
SASE prepares Asian heritage scientist and engineers for success in the global business world. We support and celebrate diversity on campus and in the workplace. Our organization provides opportunities for members to give back to their local communities.

WHY IT MATTERS
Diverse organizations make informed and inclusive decisions that help make our society stronger. Asian Pacific Islanders (API) account for only 2% of executive leadership in the Fortune 500, yet make up 6% of the US population. SASE is working to mentor and empower the next generation of Asian heritage leaders in the workforce.
