WHAT IS SASE?
The Society of Asian Scientists and Engineers is the go-to organization for talent and leadership in science, engineering, technology, and mathematics.

WHAT WE DO
SASE prepares Asian heritage scientists and engineers for success in the global business world. Our organization supports and celebrates diversity on campus and in the workplace. We provide opportunities for members to make contributions back to their local communities.

WHY IT MATTERS
Diverse organizations make informed and inclusive decisions that help make our society stronger. Asian Pacific Islanders (API) account for only 2% of executive leadership in the Fortune 500, yet make up 6% of the US population. SASE is working to mentor and empower the next generation of Asian heritage leaders in the workforce.

OUR PROGRAMS

JR
STEM outreach and engagement for students in high school to position them for success in higher education or in the workplace.

COLLEGIATE
Leadership opportunities, career growth, and skill development for students in over 80 affiliated college chapters nationwide.

PRO
Unleash leadership potential in professionals by providing training and expertise for the unique challenges Asian Americans face.
WHAT IS #SASENC2019?

SASE National Conference & STEM Career Fair is the largest conference for Asian Americans in the United States. Over 3,000 students and professionals from around the country join the world’s leading companies in science, tech, engineering, and mathematics. #SASENC2019’s theme, Building Bridges - Connecting Leaders, inspires our members to build lifelong connections that transcend both personal and geographic boundaries.

As the premiere gathering for Asian heritage scientists and engineers, our conference is a unique opportunity to educate, engage, and elevate the careers of students and professionals. Don’t miss out on three unforgettable days of building and connecting.

CAREER FAIR

Discover Your Dream Career

Register for the largest career fair for Asian Americans with over 80 companies recruiting for internship and full-time positions. Advance your career with Fortune 500 employers in science and engineering. Interviews and offers are available on-site at the career fair. Whether you are a freshman or a grad student, employers at #SASENC2019 are looking for individuals like you!

Uploading your resume to our resume portal prior to the event will allow select companies to review and extend interview opportunities prior to career fair. Submission of your resume to the resume portal is not required, but highly suggested. Resume reviews, career mentoring, and other professional networking opportunities are also available during the career fair.

Date: October 12
Time: 10AM - 4PM
Price: Free
Create innovative solutions for real-world challenges with technology. SASEhack is an overnight hackathon competition between software developer teams. Show off your programming and design skills in SASE’s annual hackathon. With over $1,500 in cash prizes, you’ll have an opportunity to learn new skills, meet new people, and challenge yourself!

Food and beverages will be provided throughout the event.

Date: October 11-12
Time: 8PM - 7AM
