8 In-Person Opportunities
14 Virtual Opportunities
16 Opportunity Boosters
17 Special Thanks
Dear prospective sponsor,

Thank you for your interest in helping present our 2021 National Convention in Atlanta, Georgia. We’re excited for you to be part of our 11th and largest conference yet. Drawing on the success of our first virtual conference in 2020, we are planning to hold an in-person convention Oct. 14-16 with collegiate and professional conferences, and also a virtual conference shortly following.

SASE has grown at a fast pace over the last 13 years, and today we’re the largest Asian and Pacific Islander (API) organization in the U.S. Our collegiate chapters consistently attract new members and send large groups to our conferences every year. We know one of the biggest reasons they come is to meet you and learn about your organization – that’s why we’re always engaging various companies to hire talent, helping organization’s branding and reputation and develop talent in their organization.

As our conference continues to grow, we want to provide as much value as possible to our members and sponsors. Our programs focus on the challenges and opportunities ahead of API employees because we strongly believe in the success of diversity and inclusion in the workplace. We co-create programming with many of the sponsors’ API ERG/BRGs. Our invite-only Executive Forum engages over 40+ seniors executives, who support the company’s effort in expanding D&I, talent and professional development. We’re the largest API platform for employee recognition and professional development, and we’re proud to also honor API military service members (who may be working for your organization) as part of our conference agenda.

Reports show API professionals are the least likely to hold manager and executive positions out of any other racial group in the U.S., and that motivates us to help bring out the untapped leadership potential in your API employees. With our education and training resources, we’re leading that conversation starting at the collegiate level through the C-suite level. We’re confident that, with your support, we can make a real impact in the API community.

We look forward to seeing you October 14-16 in Atlanta, online or both!

Sincerely,

Khanh Vu

The Society of Asian Scientists and Engineers is a 501(c)(3) nonprofit organization dedicated to advancing Asian heritage scientists and engineers in education and employment to achieve their full career potential. In addition to professional development, SASE encourages members to contribute to the enhancement of the communities in which they live.

Our mission is to:
- Prepare Asian heritage scientists and engineers for success in the global business world
- Celebrate diversity on campuses and in the workplace
- Provide opportunities for members to make contributions to their local communities

Each year, SASE hosts the largest Asian American STEM career fair in the U.S. In addition, our annual SASE Magazine is distributed to all conference attendees and all chapters.

With a network of more than 10,000 students and professionals, SASE provides unique access to technical talent across the U.S. We position you to recruit potential candidates and connect with other companies who believe in diversity and inclusion. Through our programs, your company can make an impact on the next generation of leaders and even provide your employees with a place to grow, learn, volunteer and lead.
