

2022 SASE National Convention and STEM Career Fair Volunteer Information Packet

Thank you for your interest in volunteering for the 2022 SASE National Convention and STEM Career Fair! The convention would not continue to grow and be successful each year without the dedicated and passionate volunteers that make the event possible. Volunteering is a rewarding experience. Not only do you help make the convention a success, but you also gain valuable skills and discounted access to the event. Please take a moment to review this packet to see which committees are best suited to your interests. Please be open to a few options.

This packet does not fully describe each committee or role, but is provided to serve as a guide to those interested in volunteering. Please know that as the needs of the conventions change, volunteers may be asked to adapt to suit the needs as they arise. Also, roles described are not all inclusive of the responsibilities that may be asked of volunteers. It is essential that volunteers remain flexible and have a positive attitude.

For 2022 the intention is to hold the National Convention and the Career Fair in person. However, should circumstances arise that necessitate a virtual platform, the dates of the event will continue to be as close to the in-person dates as possible. It is expected that volunteers will continue to execute NC virtually.

SASE National Convention Volunteer Application: conference.saseconnect.org/nc-callout

1. About the SASE National Convention and STEM Career Fair

The Society of Asian Scientists and Engineers (SASE) is a 501(c)(3) nonprofit organization. Since the first SASE National Conference and STEM Career Fair in 2011, the event has grown to over 3,200 registrations in 2020. The National Convention will host the SASE Pro Conference, SASE Collegiate Conference and STEM Career Fair. While it is our hope that these events will occur in person, volunteers need to be aware and willing to work on both in person and virtual platforms.

SASE's mission is to prepare Asian heritage scientists and engineers for success in the global business world, celebrate diversity on campuses and in the workplace, and to provide opportunities for members to make contributions to their local communities. SASE membership is open to men and women of all ethnic backgrounds.

2021 - 2023 Location: [Georgia World Congress Center](#)

	Reimbursement	25% Off Registration, upon successful completion of duties.

4. Committee Descriptions (unless specified, committees will work on both Pro and Collegiate Conferences)

Logistics (Convention wide) works to make sure that all of the logistics are coordinated with the other committees. Responsibilities include, but are not limited to, mobile app (content, agenda, maps, games), transportation/tour(s), ambassadors, greeters, supply room, and on-site logistics. Should the event be executed virtually, this committee will include tech coordinators who are responsible for confirming the meeting link for the session, opening the meeting and admitting attendees, creating breakout rooms if requested, and bringing up any polls.

Programming (Collegiate) is responsible for coordinating the Collegiate networking events and entertainment, communication with the presenters/ROC, and attendee experience including gamification on the mobile app. This committee will also coordinate community service aspects of the convention and gamification in the mobile app. This committee is also responsible for recruiting and training handlers (day-of volunteers) to care for each breakout session.

SASEhack (Collegiate) works with a sponsor to design and implement a hack prior to National Convention. This includes the posting of the event, coordinating registration, managing prizes and distribution, securing mentors and judges and integrating a minimum of one workshop. This committee, while part of the NC team, reports to the SASE IT Manager/Coordinator.

National Convention Collegiate Marketing is a committee reporting to the SASE Marketing Coordinator to communicate, energize, and increase attendance for National Convention. They also work closely with the Director of Organizational Relationships as responsibilities may include the execution of social media posts on behalf of sponsors. They will work on campaigns such as the role model competition and registration drawings with swag giveaways. It is important for volunteers in this committee to keep in contact with other committees as there is some overlap with social media, mobile app, and promotional outlets. Lead the media team prior, during, and post conference to have photos and video footage appropriate for promotion of the following years' conference. A key responsibility of this committee is to provide chapters and other outside organizations with attendance information and to drive registration.
